

I would like to voice my concern for the expanding of LPFM at the expense of existing FM translators. K-LOVE radio is a much loved radio station, and it serves the Austin, TX area with clean, uplifting content.

There are no other stations in the area that have the excellent programming as K-LOVE, and losing it would be tragic.

The Austin, TX community benefits from K-LOVE's broadcasts because it gives parents an alternative to the abusive language and content of other radio stations in the area.
